

**REMARKS**

The application contains claims 7-19 and 21-35, all of which have been allowed. Applicant, therefore, requests allowance of the application.

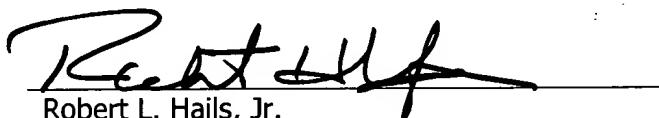

The specification, abstract, and drawings have been corrected in response to the Examiner's requests, with the following exceptions. There is no need to correct the drawings as suggested in paragraph 10 of the Office Action because

- the indication RFO is adequately described as p. 7, line 3; and
- the foregoing specification amendments provide correspondence between the designations "E State" and "G2S" and the disclosed subject matter.

In all other respects, the suggested corrections have been adopted.

Allowance is requested.

Respectfully submitted,

---
